

## Smart Serve *for* Off-Licence Retailers

Free training for off-licence staff around responsible service is now available from the Health Service Executive (HSE) South.

The FREE one day training programme, **Club Cork Smart Serve**, has been developed specifically for those working in the off-licence trade.

Co-ordinated by the HSE South's Health Promotion Department in partnership with the An Garda Síochána and security personnel, the course, which is funded by the [Cork Local Drugs Task Force](#), aims to equip off-licence retailers with the skills to aid them in alcohol-related situations that they can face in their line of business.

The training has been piloted with more than 45 off-licence retailers and feedback has been very positive with participants enjoying the interactive and practical nature of the course.
